ANDREW ELLIOT, his Majeſty's R. General.

Saturday Evening the Earl of Halifax, Packet, Capt. Jefferies, arrived here with the June Mail, in 8 Weeks from Falmouth, by whom we have received the following freſh Advices, viz.

From the LONDON GAZETTE, *June* 16.

CONSTANTINOPLE, *May* 2.

THE Mufti has been depoſed, and the Grand Signior has appointed another, who is an old man, and has been Mufti twice before.

Warſaw, May 1. In Anſwer to the Speech made to the King by the four Deputies from the Confederations of Thorn and Sluck, at the Audience which they had of his Majeſty on the 28th Ult. the Great Chancellor of the Crown ſaid, "That the King, not being able to do any Thing without his States, would propoſe the Affair to the approaching Dyet, and then do every Thing that was poſſible on his Part."

Warſaw, May 2. Some Perſons doubt not but Prince Radzivil, late Waywode of Wilna, who, ever ſince the laſt Interregnum has continued abroad, will be ſhortly re-eſtabliſhed, if not in all his Dignities, at leaſt in the Poſſeſſion of his Eſtates. It is aſſured alſo, that this Nobleman is re-entered into the good Graces of the Empreſs of Ruſſia, who has very lately conferred on him the Enſigns of the Order of St. Andrew.

Venice, May 10. The Senate has ordered two Men of War, which lie here, together with three more from Mahon, as alſo ſome ſmaller armed Veſſels, to repair to Algiers. The Commodore of this ſmall Fleet is to demand of the Dey to ratify the Peace concluded with his Predeceſſor, and, in Caſe of Refuſal, to declare War, and inſtantly to begin it by bombarding the City.

Cadiz, May 5. We are informed by Letters from Gibraltar, confirmed by thoſe from Larache, of the 29th laſt, that a Corſair of the King of Morocco, commanded by Raes Omar, a Portugueſe Renegado, has taken a French Brigantine, bound from Marſeilles to one of the Weſtern Ports of France, with a Cargo of Oil, Cotton, Soap, and other Stores. This Act of Hoſtility, committed in Time of Peace, has alarmed all the Merchants, and it is not doubted, but the French Ambaſſador to the Court of Morocco, will complain loudly of it to that Prince.

Leghorn, May 16. They write from Rogliano, in the Iſland of Corſica, that 91 of the Priſoners that were taken in the Iſland of Capraia, are arrived there. Thoſe among them who are Genoeſe, or of other Nations, are treated according to the Rules of War in all civilized Countries; but thoſe who prove to be Corſicans, are ſent to Priſon, and treated as Rebels and Traitors to their Country.

Paris, May 25. Letters from Rennes adviſe, that the King's Commiſſaries went to the States the 12th

Instant, to get his Majesty's Order of the 25th of April read, importing, that the King having been informed of the Obstables which some Members of the Nobility raised against the Dispatch of the Affairs of the Province, under Pretence of Difficulties foreign to the Objects for which the States were convened; his Intention is, that his Commissaries shall close the Proceedings of the States on the 23d of May, in whatever Situation Affairs may then be, his Majesty reserving to himself to make known his Intentions with respect to the Business they have done: And his Majesty forbids the Members of the three Orders to assemble after the Close of the Sittings on Pain of Disobedience. The Ecclesiastick Order and that of the third Estate have written a Letter to the King, to desire that his Majesty will communicate to them the Memorials which the Noblesse have presented against them.

Constantinople, May 2. They write from Cairo, that the 3d of March last, being the second Feast of the Bayram, the Day on which all the Beys, and other great Officers of the City, go to the Castle to salute Hamsey Pacha, Governor of Egypt, and to pay their Compliments to him, according to the Custom of the Festival; about sixty Persons, the greater Part of whom belonged to the Grandees, who were exiled some Time since, having formed a Plot to get rid of several Beys, at that Time in Office, introduced themselves, disguised and armed, into the Bashaw's Hall of Audience; but although the Secret of their Conspiracy had not transpired, they had concerted Matters so ill for the Execution, that it succeeded not entirely. The Emir Hatch, or Conductor of the Mecca Caravan, having observed a Stir among the Bashaw's People, he made a Signal to the Bey; the latter getting up immediately to take Leave of the Bashaw, he received a Pistol-Shot, which carried off Part of his Jaw.—This Wound, though considerable, discouraged him not. He took Sword in Hand, and supported by the other Beys, who did the same, made Way through the Conspirators. One Bey only remained dead on the Spot. The Emir Hatch had his Tchaouch killed, the Tchaouch Kiayassi was dangerously wounded, as well as several other principal Officers. After this bloody Scene, which cost the Lives of a great Number of Persons, the Government determined to depose the Bashaw, which was done the same Day, and those among his Officers, who were suspected of having favoured this Plot, were exiled. The Aga of the Janissaries is making vigorous Researches after all who may have been seduced into this Conspiracy, and has already ordered several great Men of Cairo to be punished, who have been found to be of the Number of Conspirators.

The Grand Signor being informed, that the Government had deposed Hamsey Pacha, he has conferred on him the Government of Aleppo, and nominated to replace him at Cairo, Rakim Effendi, formerly Testerdar, whom his Highness has honoured with the Title of Bashaw of Three Tails. It is believed that the Bashaw, who was at Aleppo, will be invested with the Government of Kars, vacant by the Death of Akikalla Mehemet Pacha.

Toulon, May 9. It is said, that when Signor Romanzo had an Audience of General Paoli, to render an Account to the illustrious Chief of his different Negotiations, his Excellency insisted that the Conversation should be in English.

Madrid, May 12. On the 3d of this Month there was a large Concourse of People in the Great Square of this City, without our knowing the Cause; but at the Approach of some Detachments of Troops they dispersed. The Council of Castile have promised a Reward of a Hundred Pistoles to whoever shall discover the Occasion and Movers of this tumultuous Concourse, and if the Discoverer shall be a Party concerned, he is further promised Letters of Abolition.

Mittau, May 16. The Duke and the Nobles of Courland acceded Yesterday to the Confederacy formed by the Dissidents of Lithuania. In the Act of Accession it is declared in express Terms, that this Step shall in no respect alter the Connection between the Duchies of Courland and Semigallia, and the Republic of Poland, nor the Rights of the Roman Catholick Religion; that the Marshal of the Confederacy shall exercise no Jurisdiction over these two Duchies, that he shall not impose any Contribution upon them, and in short, that this Accession shall not be alledged as a Precedent in Case of any future Confederacies.

Warsaw, May 18. The Bishop of Cracow, the Waywode of Lenczyc, his Brother, the Waywode of Kiovia, and the Count of Miniszeck, have, it is assured, formed a Project of a general Confederacy, as well for the Kingdom, as Lithuania; but People speak of it so confusedly, and in so mysterious a Manner, that it is difficult to say, whether it is to be opposed to those of the Dissidents, or to have for its End the Maintenance of the public Tranquility.

Thorn, May 22. On the 18th Instant a large Detachment of Russian Troops, that have been here and in this Neighbourhood, marched, under the Command of Major-General Count d'Apraxin, in order to take Quarters in Great Poland.

Paris, May 30. They write from Rennes, that several Members of the Nobility of the States of Britany were taken up in the Night between the 20th and 21st Inst. by virtue of Letters de Catchet, and sent to the Castle of Pierre-Encise.

Berlin, May 30. We have received the melancholy News, that Prince Frederick-Henry-Charles, Brother to the Prince of Prussia, died on the 26th, at Eight in the Evening, at Protzen, of the Purples. He was aged 19 Years and about 5 Months, having been born on the 30th of December, 1747. Gen. Hulsel, is also dead.

Dantzig, May 26. Sunday last Prince Radzivil, late Waywode of Wilna, arrived here under an Escorte of Russian Troops; he proposes to continue his Route immediately for Lithuania. We are impatient to know whether, at his Arrival at Zluck or at Wilna, he will be re-instated in the Possession of his Effects, of which he was deprived by a Decree of the last Diet.

Hambourg, June 2. Some Letters from Poland say, that Prince Radziville, late Waywode of Wilna, has acceded to the Confederacy formed by the Dissidents of Lithuania at Sluck. They add, that Count Branicki, Great-General of the Crown, favours also under-hand that former by the Dissidents of Great and Little Poland at Thorn. Both these Articles of Intelligence seem ill-founded, inasmuch as these two Noblemen profess publicly the Roman Catholic Religion. Possibly their Conduct, during and since the last Interregnum, has given Room to these Reports.

Venice, May 19. The Dearness of Bread has put the People of Lucca into a Disposition of Rising. They signified their Intentions by sticking up Billets to the following Effect: *Se non cala il Pane un Soldo, ci darema a Leopoldo:* [*If Bread does not fall a Soldo* (*Penny*) *we will give ourselves to Leopold.*] On which the Regency immediately increased the Weight of Bread.

Paris, June 1. The last Letters from Rennes advise, that the Noblesse of Bretagne have been in a Body to wait upon the Duke D'Aiguillon, to know the Motive of taking up Mr. le Visc. and Mr. le Chev. de Mousaye, who were carried off in the Night of the 20th Instant, and conducted in separate Post-Chaises to Pierre-Encise. The Duke D'Aiguillon made Answer, "That he was only the Executor of the King's Orders, and that the Noblesse could not be ignorant of the Respect and Submission due to his Majesty."

Genoa, May 16. On the 13th Instant the Government embarked 400 regular Troops on board some armed Vessels, with Orders to join those under the Command of the Senator Pinelli, in order to enable him to make a second Attempt to land on the Island of Capraia. It is assured, that the Senate is resolved to use all possible Means to recover that Island; and as, on the other Hand, the Corsicans will do their Endeavours to maintain themselves there, the War will probably be as brisk as before.

LONDON,

May 23. Orders are said to be given for three Companies of the Royal Regiment of Artillery, to be in Readiness to embark for the West Indies, and North America, to complete the Battalion now on those Stations.

May 28. A letter from Margate, May 26. says, "Last night came Lord Holland to his seat in this neighbourhood, in much better health than he left it; which occasions great joy."

Private letters from Madrid inform, that a Spanish Gentleman in Office at St. Sacrament, or Nova Colonia adjoining to Brazil, had been ordered home to answer certain accusations against him for being secretly concerned in an illegal correspondence with the Jesuits of Paraguay.

A letter from Paris, says, that an eminent physician there has lately introduced a very uncommon method of bringing on the small-pox, by communicating the infection up the nostrils in a powder. It is added, that the effect is equally sure as from incision, and more agreeable to the patient.

They write from Minorca, that a very brisk trade is now carried on between that island and Corsica. The balance of which is entirely in favour of the English merchants.

We are assured, that there is no foundation for the report, that any disagreeable advices have lately been received from the East Indies.

We hear from Scilly, that the tin mine discovered there, from its easterly direction, is supposed to run quite under the bed of the channel which seperates the islands from Cornwall and the Land's End.

We hear that an extraordinary Board of Trade will be held next Week, in Consequence of some recent Advices received from our American Colonies.

We hear a Drawback is to be allowed on the Exportation of Coffee and Cocoa of American Growth.

May 26. *We hear the celebrated John James Rousseau set out privately on Friday Morning for France.*

His Majesty's Pardon, and a large Reward, are offered for apprehending several Persons concerned in an Attempt to assassinate Mr. Alexander Gordon, Collector of the Customs, at Ayr in Scotland, on the 6th of March last; when Mr. Herrier, a Merchant, who was in Company with Mr. Gordon, had his Horse shot dead under him, and his Person seized with a Resolution to murder him, (supposing him to be Gordon) but on being convinced of their Mistake, they suffered him to escape, and rode after Mr. Gordon, but did not overtake him.

We hear from Penrith, in Cumberland, that a Gentleman of that Place was lately so affected by losing a few Cock-matches, that he laid violent Hands upon himself.

A poor Girl, not quite Seventeen, of a good Family in the West, on Thursday last came to the Possession of Seven Hundred a Year, and a large Sum of Money, by the Death of an Aunt.

June 6. *We hear that a Gentleman of Derby has lately been in the Downs to make Trial of a new Marine Surveyor. The Machine consists of an open Tube four Inches Diameter, and two Feet long: On the Outside is fixed an oblique Plane like a Screw; upon which the Water acts so as to turn it round swifter or slower in Proportion as the Machine is drawn through the Sea, with greater Ease or Velocity.*

Last Monday was committed to the Gate-house by Samuel Waddington, Esq; one of his Majesty's Justices of the Peace, Alexander Dunn, for violently beating and threatening to murder a Post-boy who had just brought him out of the Country.—This is the same Person who was some Time since committed to the King's-Bench, charged with the Intention of assassinating Mr. Wilkes.

June 9. We hear that a certain Irish Nobleman and his Lady went last Thursday to Dunmow in Essex, in order to claim the Flitch of Bacon, which, according to the Custom of that Manor, is given to those, who swear that they repented not of their Marriage within a Year and a Day after the Celebration thereof. This is the first Time that Persons of their Rank have laid Claim to it. It is therefore hoped that many more Lords and Ladies will soon follow the Example, and thereby rescue Matrimony from the Contempt it now suffers in the fashionable World.

Extract of a Letter from Marseilles, May 1.

"Signor Romanzo, the Corsican Courier, has been among us these ten Days past. The Duke de —— having said something very impertinent against the British Nation, and particularly against a great Personage, the generous Corsican told him that the British were a Nation of Men, and their King the best Prince in Europe. He said this with such an Emphasis and so indignant a Look, that the Duke thought proper to call him out, and they fought behind the Ramparts. The Duke was severely wounded, but Signor Romanzo escaped unhurt. This affair has done him great honour with every Body. *C'est un beau coup cela pour prendre conge*, said a Colonel of the *Gensd' Armes*. M. Romanzo is preparing to embark, on his Return to Corsica."

Extract of a Letter from Paris, June 1.

"Letters from Poitou bring us Accounts of great Damages done in the Country by the Frosts of the 18th and 19th of April, and 6th and 7th of May. The Apples, Nuts, and all Kinds of Fruit are entirely destroyed; as well as the Flax which was sown in Autumn; and that Town in March was greatly damaged: The Rye, which is the chief Subsistence of the People in several Provinces, has suffered so much, that they have cut down Part of it green for Fodder for the Cattle. These severe Frosts have produced nearly the same Effects in the Touraine and Anjou: The Mulberries and other Fruits are mostly destroyed; and the Loss of the Apples is more particularly regretted as they produced a considerable Revenue for the Touraine.

"We have Advice also from Burgundy, that the same Frosts have destroyed Three-fourths of the best Vineyards in that Province, and Two Thirds of those of inferior Qualities. The Vines, Mulberry-Trees, and all the other Fruit Trees, are entirely lost in the Bugey."

A settlement of a capital nature 'tis said is intended for the borders of the Mississippe, and we are told that agents are already extremely busy in collecting residents.

They write from Senegal, that a crew of pirates in an armed schooner, who had committed divers robberies on the coast, finding themselves pursued by an English man of war, and that it was impossible to escape her, blew themselves up by setting fire to the powder room, and every one on board perished.

June 13. Letters from Warsaw, dated May 23, say, "To-morrow is fixed for the opening the Senatus-Consilum. Most of the Grandees are arrived, but at the same Time it is to be observed, that several of the principal are gone home; some of them even without taking Leave of the King. The Cause of so unexpected a Departure is not known; but it is remarked, that the Grandees in general differ greatly with respect to the Manner in which the approaching Diet should treat the Cause of the Dissidents, and answer the Declarations of the Powers who interest themselves in their Favour."

A Prosecution has this Week been commenced against a Gentleman of Fourtue in the County of Surry for Bigamy; it is said he has now three

Wives living, with the first of whom he had 5000l. with the second 8000l. and with the last 10000l.

A Camp is to be formed at Compeigne by the 22d of July, of 17,000 Men, composed of the Flower of the French Army. The King removes to Compeigne after the Review of the 19th.—It is expected the Regiments of Belsunce (Cavalry) and of Turenne (Infantry) two fine Corps, will be there.—The Regiment of Artillery at Besancon will march from thence to compose Part of the said Camp.

A French Ship, arrived at Cadiz from the Canaries, brings Advice, that thirty-three Jesuits, who were on board a French Ship (bound to Buenoa-Ayres) which stopt at those Islands, were arrested there, together with nine of their Fraternity who were settled in the Islands, and who inhabited three different Houses. It is not above twenty Years since the Society formed a Settlement there.

An Express is arrived with an Account of the Death of the Empress of Germany, of the Small-Pox, in the 29th Year of her Age. She was Sister to the present Elector of Bavaria, and was married to the present Emperor the 23d of January 1765. This is the second Consort his Imperial Majesty has lost by that fatal Distemper.

Private letters from Rome assure, that the late interview granted by the Pope to the pretended Prince Edward, was in resentment for certain vigorous measures taken here, for checking the growth of Popery.

Other advices insinuate, that an open rupture is not far off, and that the friends of the young Chevalier are in high spirits as expecting he will soon be acknowledged by his Holiness in form.

BOSTON, August 17.

A Letter from a Gentleman in London, to his Friend in America, of a late Date, is said among other Matters to contain the following Paragraph, viz. "I have just left the House of Commons, quite "tired out with hearing the Reflexions which are "cast upon the Colonies, owing entirely to the Re-"presentations from among yourselves."——

PHILADELPHIA, August 24.

Extract of a Letter from Barbados, July 25, 1767.

"I hereby acquaint you with the Fate of St. Lucy's Church. On Tuesday Afternoon last, there was in that Neighbourhood a violent Clap of Thunder (scarce heard any where else) the Lightning broke a Hole through the Wall, at the East End, about four Feet wide, which has destroyed that excellent Piece of Workmanship, the Altar Piece; shattered most of the Pews, and Seats; some of the Flooring struck almost perpendicular, and the Pavements in a Number of Places tore up; there is as yet but little Damage discovered to be done to the Roof, but the Wall is said to be so shaken, that the whole Church must be rebuilt."

Friday, the 4th inst. the Body of Matthew Robeson, who was drowned out of a Flat at Hay Creek, was taken up at the Fort. Also the Body of Cornelius Griscall, who fell from the Transport Ship Admonition, was found at one of the Wharfs in this City. The next Day Daniel Hicks, who was drowned out of a Flat in Pennypack Creek, was found at Point-no-Point.

Captain Spencer, from Anguilla, on the 11th Instant, in Lat. 35, 30, Long. 70, spoke a Ship from London for Maryland, but could not learn the Master's Name. About two Hours afterwards, he saw a deep-loaded Ship, about 3 Leagues to the Windward of the above Ship, heave out a Signal, and bear down for her, when the other shortened Sail, and sent a Boat on board, which staid all the Afternoon; Capt. Spencer imagined she was in Distress, as he saw them constantly at the Pumps. In the Evening she hauled her Wind, and stood to the Northward, supposed to be bound for New-York.

By Capt. Hubbs, from Barbados, we learn, that on the 26th ult. the Fleet for Europe sailed from thence, and the next Day the Ship Nancy, Captain Ross Stewart (one of the Fleet) was found overset, about 15 Leagues to Leeward, without Boats, or any Person on board; by which it was imagined the People had been taken up by the other Ships, or were gone to some of the Islands to Leeward, in their Boats.

NEW-YORK, August 27.

On Saturday Morning, a Fire broke out at the Upper-End of Horse and Cart-Street, in a new built House belonging to one Neven, a Carpenter, who it seems was abroad at Work, and the rest of the Family having gone out, and left the House to some small Children, it is supposed they set Fire to some Shavings that lay on the Floor. The Flames were first discovered coming out of the Front Door; and tho' it was a Wooden Building, and the Fire had got to a considerable Height, before the Inhabitants were collected; yet by their usual Activity on these Occasions, it was extinguished in less than 20 Minutes, but has almost ruin'd the House.

The Mail to go by the Halifax Packet, Captain Jefferies, is to be closed on Monday next.

Wednesday last Captain George Tucker arrived here from Turks-Island in 17 Days: He says that many Settlers have lately arrived there from Bermuda, and that the Place bids fair for being in a short Time, very considerable on Account of Trade; that Governor Semmer has appointed a Council, and the Inhabitants have chose an Assembly, by Virtue of an Order from England; and that several French Sloops have lately been there, but could not dispose of their Cargoes, there being but very few Purchasers. Salt very scarce.

On the 23d Inst. arrived here the Sloop Mary and Ann, Captain Abraham Martino, in 25 Days from Jamaica; who on the 3d Day of this Inst. spoke with the Brig ——, Capt. —— Conner, Master, in Lat. 18, 26: Long. 74, 36: bound from South-Carolina to Jamaica, out 21 Days, and sprung the Head of her Fore-mast; and on the 7th, spoke with the Ship Prince George, Captain James Robinson, from Jamaica, in Lat. 20, 52: Long. 73, 46: bound to Philadelphia, out 21 Days, all well.

To the PUBLIC.

The NEW-YORK AIR FURNACE COMPANY,

HAVE *lately erected an AIR FURNACE near the City, which after a considerable Expence, they have now got in proper Order, for casting in the neatest Manner, the under-mentioned Goods, which are equal to any imported from England, Scotland, Ireland, or even Holland, either for Shape, Lightness, boiling white, or standing Fire: They therefore hope the Public will encourage the Works, by giving the Preference to what is* AMERICAN-MAKE, *especially when the Price is full as low as any can be afforded for, that are imported from Europe, viz.*

POTS, kettles, skillets, pot-ash kettles, and bottoms for calcining pot-ash, which they will warrant for three months, chimney backs, layers, and Jamb-plates, agreeable to any pattern that shall be sent; forge and fullers plates, hatters basons, forge hammers and anvils, sugar-house boilers, stoves, pipes and grates, round and square stoves for work shops or house use, ships cabooses, perpetual ovens, pye-pans, mill-rounds and gudgeons, sash weights, half hundreds, and smaller weights, cart, waggon, and chair boxes of any size, for iron or wooden axletrees; chassing-dishes; besides many other articles in that way, which will be cast agreeable to any pattern that shall be delivered at the furnace, or to

Peter S. Curtenius,
Gilbert Forbes, Richard Sharpe, and Thomas Randall.

N. B. The purchaser is desired to take notice, that he has the advantage at our furnace, to get a real ton of twenty hundred weight, small and large, all at one price, and no nominal ton of about fifteen or sixteen hundred weight, besides having much better ware; for it is allowed by proper judges, that all castings in Air Furnaces, can be made lighter, more solid; and the metal more refin'd than what is cast in blast Furnaces, where all castings are made out of the ore; whereas in Air Furnaces, all is cast out of pigs, of course the ware is much clearer of honey-comb and dross. 85 88

SUPPLEMENT to the NEW-YORK JOURNAL, OR GENERAL ADVERTISER.—NUMB. 1286.

THURSDAY, AUGUST 27, 1767.

PARIS, May 22.

A Woman of Morlax was brought to bed, in February last, of a Daughter, who had two necks and two heads, and lived to receive baptism. She was opened after her death, when they found in her two hearts.

Leghorn, May 11. The following account is given here of the late affair at Caprea between the Genoese and Corsicans. On the 3d of May, about an hour before day, the Genoese landed at a place named Civita, which, because it was very difficult to get on shore there, was not guarded by the Corsicans. The Genoese troops, who had landed, consisted of a hundred and fifty men, and were destined to surprise a place, called la Figa. Of these, fifty remained on the spot where the descent had been made, and the hundred others possessed themselves of the heights around.

As soon as day appeared, a flying squadron of twelve Corsicans perceived their landing, and immediately attacked the Genoese vigorously. The Sieur Antonio Matra, who commanded the latter in chief, thinking himself above all reverse of fortune, gave them to understand, that he would give quarter to the Corsicans, if they would surrender to him; but the report of the descent being spread among all the troops of that nation, they advanced with their usual courage upon the enemy, and attacked them so roughly, that in the space of a quarter of an hour, the fifty Genoese remained on the shore, either killed, wounded, or made prisoners. This first success encouraging the Corsicans, they attacked the hundred who had possessed themselves of the heights, and the latter after a few shot of musquetry, demanded quarter, and surrendered all excepting the Sieur Matra, and three others, who threw themselves into the sea.

The Galleys and other Genoese vessels had approached so near the shore, that the bullets and small shot of the Corsicans obliged them to retire without loss of time. It is judged they have suffered much, as they have not appeared since, and some of their oars have been thrown ashore, a mark of the precipitation with which they made off. The Corsicans had in this affair two officers killed, and two soldiers wounded. This account makes the loss of the Genoese, two captains, three lieutenants, and two ensigns killed; four captains, two lieutenants, six ensigns, and two cadets wounded.

Batavia, in the East-Indies, Oct. 12.

The 18th of May, 1766, the Lindenhoff, a Ship belonging to the Dutch East-India Company, was set on Fire by Lightning, and entirely consumed. The Captain and eighty-seven others saved themselves upon Pieces of the Wreck; but the rest of the Crew, to the Number of forty Men, perished in the Flames, or were drowned. She had sailed from hence the 15th of the same Month on her Return to Holland. Another Ship belonging to the Company was wrecked in going to Banda. This Ship carried Provisions for Fort Balgique, and for the Inhabitants of the Island, who are in great Distress for Want of Provisions, occasioned partly by the great Havock made by the Volcano Gounangapy.

LONDON, May 22.

Advice is said to be received, that Lord Clive was in a bad State of Health, and intended soon to set out for Europe.

June 1. *It is now said that their Serene Highnesses the Prince and Princess of Brunswick, propose to pass the ensuing Winter in London; the Report of their speedy Departure for Germany being premature.*

His Majesty has been pleased to appoint Thomas M'Guire, Esq; Attorney-General of the Province of North-Carolina, in the Room of Robert Jones, junior, Esq; deceased.

They write from Gibraltar, that a Barbary Xebec, under Tripoline Colours, had taken a Neapolitan Bark in the Adriatic, richly laden, and carried her into the Island of Cyprus.

Advice is said to have been received last Sunday from Commodore Graves, of some further Encroachments made by the French on the African Coast.

June 4. Yesterday the Right Honourable House of Lords adjourned till Monday, the 15th Instant.

The same Day the Honourable House of Commons adjourned till Wednesday the 10th Instant.

June 4. Application for a pardon, we are assured, is again making by Mr. Pearce, to his Majesty, for one of the convicts now under sentence of death in Newgate, on condition that the said convict shall undergo an amputation of one of his limbs, in which operation the Styptic medicines only are intended to be applied, without the use of the needle and ligature. This is founded upon the assurance of a like amputation having been already performed in Africa, by a gentleman now in England, which gives room for the greatest hopes of success. Several of the convicts have signed a petition to undergo the same operation.

Dublin, May 9. *The Lord Mayor of this City has given public notice, that he hopes the Ladies and Gentlemen who intend honouring him with their Company at his ball on the 4th of June, being his Majesty's birth-day, will be pleased to confer a farther obligation, by appearing in Irish manufactures.*

May 23. *In the cambrick manufacture of this kingdom, are now employed not less than* 160 *looms at Dundalk, where, in the short space of one year only, above* 70,000 *yards have been made, the greater part already at market, or sold: and it is observable, that this quantity has been made between May* 1766, *and May* 1767, *which shews that this important manufacture is in an improving state, and will be of the utmost national advantage, which is already obvious, from the gradual diminution of the importation of French cambricks into this kingdom.*

Cork, May 21. A few days ago was married, at Gorey in the county of Wexford, Mr. Joshua Chase, aged 90, to Miss Mary Woodhouse, aged 15.

From the LONDON CHRONICLE.

AN ingenious merchant, skilled in the trade and affairs of our colonies and islands in America, has computed that they now take of our manufactures annually to the amount of *five millions*, with which they might be furnished at an average 33 per cent. cheaper, if we allowed them, and they were inclined, to trade with foreign nations. This 33 per cent. difference amounts to near 1,700,000 per annum; which if this calculation is just, they pay for their attachment to our government, and their respect for our modes. The seeds of m——f are said to be sowing, that may greatly hurt, and at length produce the ruin of this gainful commerce: For it is the opinion of some, that we shall not be satisfied without getting a little more from them, and that in the way of *c——n*, to shew our p—r. Others, however, think this account exaggerated; but even half of it is too much to risk, if the hazard may, by prudent measures, be avoided. If this should really happen, it will add another instance to the book of *Great Events from Little Causes*.

I am your's, &c. FORESIGHT.

Philodikus, *sends his Compliments to the Printer, and desires he will insert the following*

SEASONABLE QUERIES.

1. WHEN a Person requires me to do any Thing, and insists on my formal Concurrence; if my Consent be *necessary*, have I not a right to refuse it? if *unnecessary*, why is it demanded?

2. If several Persons together (one of whom *only* has a right to make Requisitions, which however I have a Right, if I please, to refuse, tho' particular respect would induce me, to comply with) require me to do something in a Manner particularly specify'd; do I not as much as, if not a great deal more than, I'm oblig'd to do, when I answer every End in View, but in the Manner I think most convenient?

3. When I am order'd (whether by sufficient Authority or not, is at present out of the Question) to cut a Stick of Wood in two with an *Ax*, and I do it with a *Saw*, which fully answers the Intention; if I must be blam'd for what I have *not* done, ought I to be blam'd also for what I *have* done?

4. Does *Difference* necessarily imply *Opposition*, or is *indirect Obedience* the same Thing as *direct Disobedience?*

5. Wherein lies the Equity of any Person's punishing his younger Brother, and at the same Time hindering his providing for his Children the Necessaries of Life, merely because he does not choose, in compliance with his elder Brother's Command, to exert his parental Authority so far as to lay upon them unreasonable and intolerable Burdens?

6. Cannot I be a faithful Servant to my *Master*, without acknowledging the Authority of my Fellow-Servants to be as *supreme* as *his*, or declaring myself to be a Servant to the Servants of the Servants of my Master? And is any Servant, who either by his Conduct approves, or with his Voice or Pen adopts such a Declaration, likely to be a faithful Servant to his Master?

7. Would there be any Propriety in rewarding me as a Servant, if, while I *zealously* and *faithfully* contended for the (supposed) *just Rights* of the *Butler*, and the (imaginary) *supreme Authority* of the *Steward*, I contented myself with *barely* and indeed only *apparently*, taking Care of the *Feather* in my *Master's* Cap?

The Common's Petition to KING CHARLES II.

The King's Answer.
